Forge Offers

# Company Intro

# Iivo Yrjölä

---

- MSc from Aalto University
- Lead Engineer at Prosys OPC
- Customer support and integration

**Team Lead, Support & Integration**

# Prosyst OPC

- Founded in 1995
- Global expert in
  - OPC UA solutions and information modeling
  - IT/OT integration
  - Industrial Security
- An active member of the OPC Foundation and Open Industry 4.0 Alliance

- 50+ countries
- 1000+ customers

# Our Product Family

---

## Developer Tools

---

OPC UA  
**Java SDK**

**Sentrol**  
OPC UA & Classic  
**SDK for Delphi**

## Integration & Visualization

---

OPC UA  
**Forge**

OPC UA  
**Monitor**

## Simulation & Testing

---

OPC UA  
**Simulation Server**

OPC UA  
**Browser**

# Why WoT Matters

---

## **Traditional industrial onboarding**

- Manual protocol integration
- Vendor-specific configuration
- Custom engineering effort
- Slow deployment

## **With WoT + Forge**

- Self-describing devices
- Faster onboarding
- Standardized metadata
- Easier integration into IT/OT systems
- Reduced engineering work

*“WoT helps scale industrial integration.”*

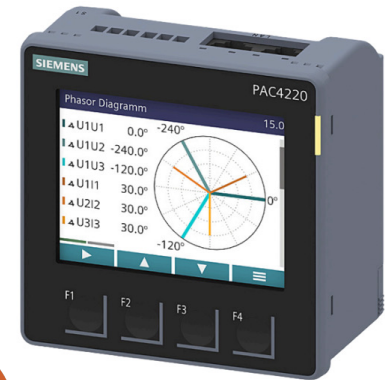

# WoT Demo

# Components

- Siemens PAC4220
  - Power Monitoring Device
  - Modbus
  - WoT Thing Description
- Forge
  - Integration platform
  - OPC UA Companion Specifications
    - <http://opcfoundation.org/UA/IA/>
    - <http://opcfoundation.org/UA/ECM/>
- Browser
  - OPC UA Client
- InfluxDB
  - History buffer database for Forge
- Grafana
  - Dashboarding tool

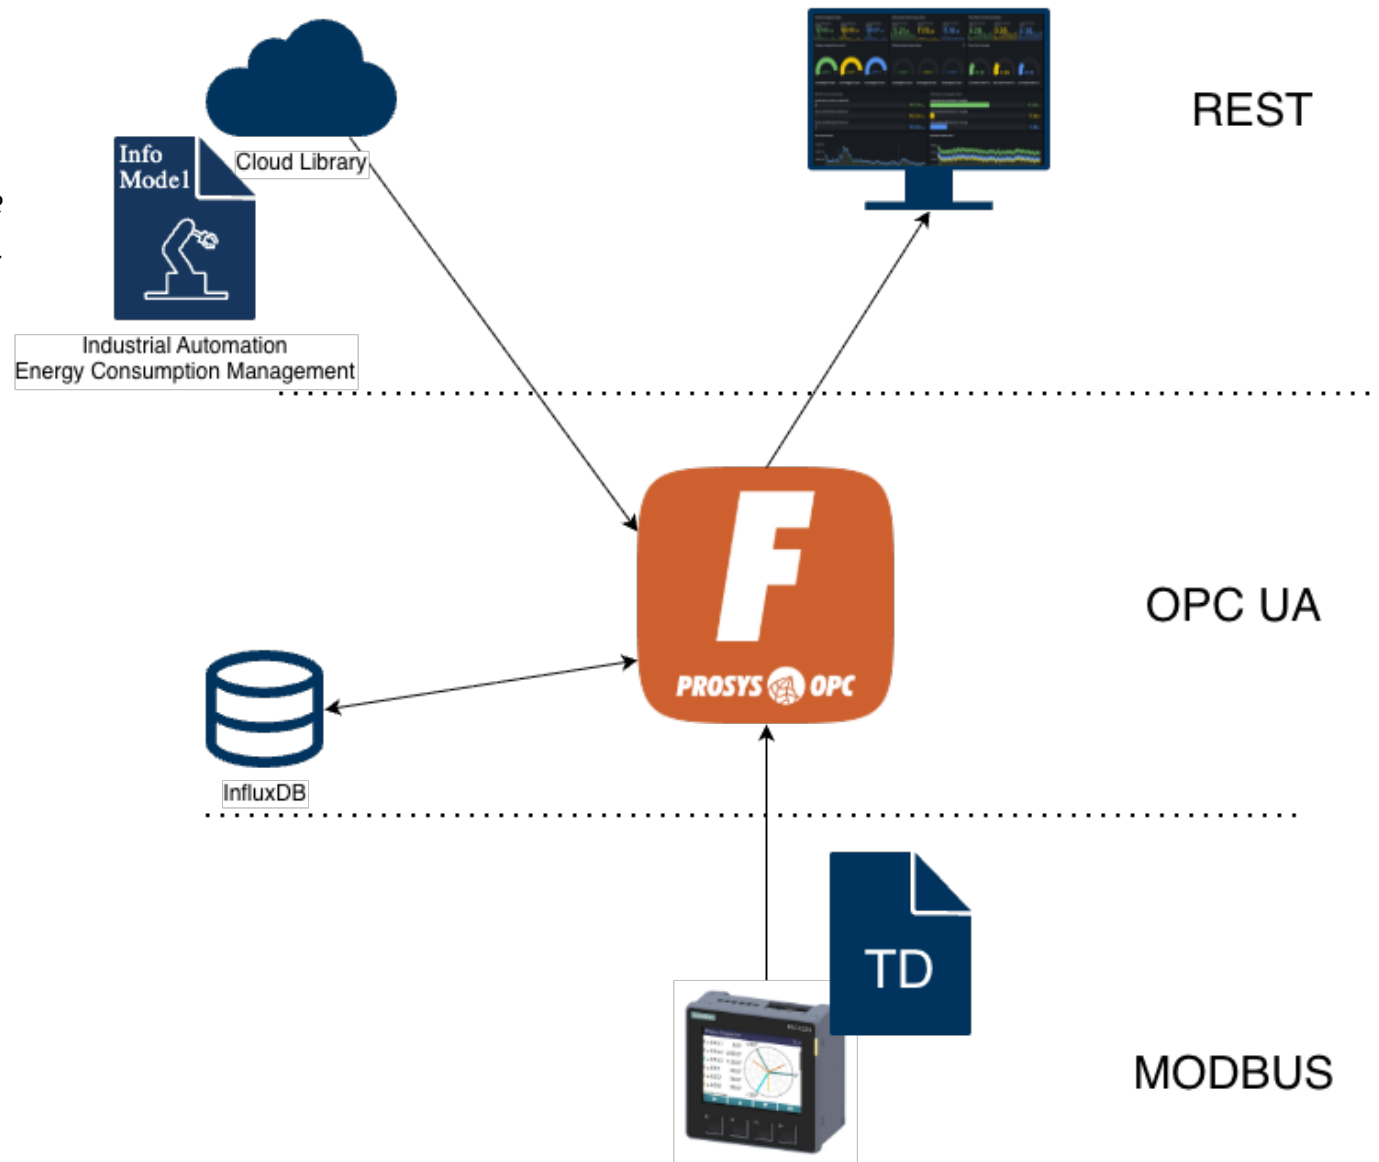

# Architecture

---

- Running in containerized environment
- Local network access to the device
- Access to public internet to connect to Cloud Library

*The key point is that the device onboarding logic becomes reusable and standardized instead of device-specific engineering.*

*OPC UA Companion Specification gives additional value for further integration.*

A woman in a business suit is looking down at a document. A dark blue rectangular overlay is positioned on the right side of the image, partially obscuring the woman's face and the document. The text "Live Demo" is written in white on this overlay. A thick pink diagonal line runs from the top left towards the bottom right, passing through the woman's face and the blue overlay.

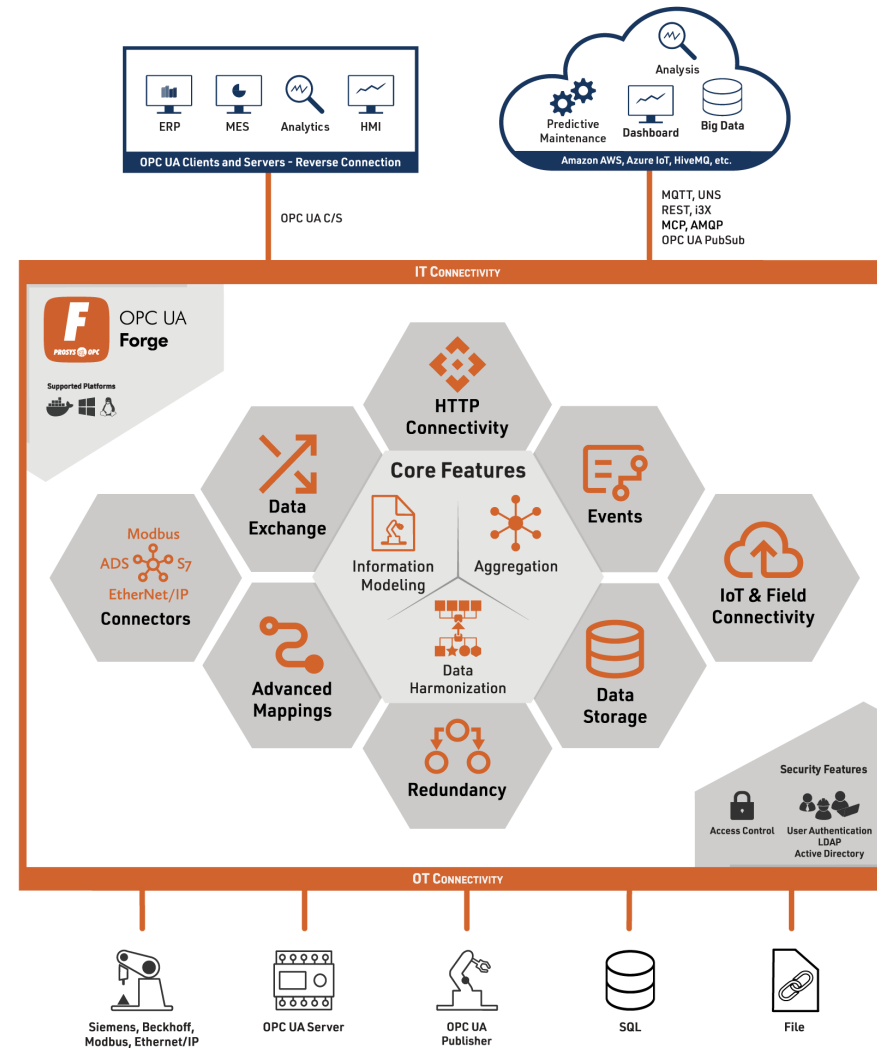

Live Demo

And much more...

# Prosyst Forge

- Industrial DataOps & Edge Application
- OPC UA Server as the core
- Variety of south- and northbound connectivity
- Business logic tools
- Windows, Linux, Container
- Web configurator
- OpenAPI REST API
