We will be recording the speaker and stop the recording at the start of the Q&A session

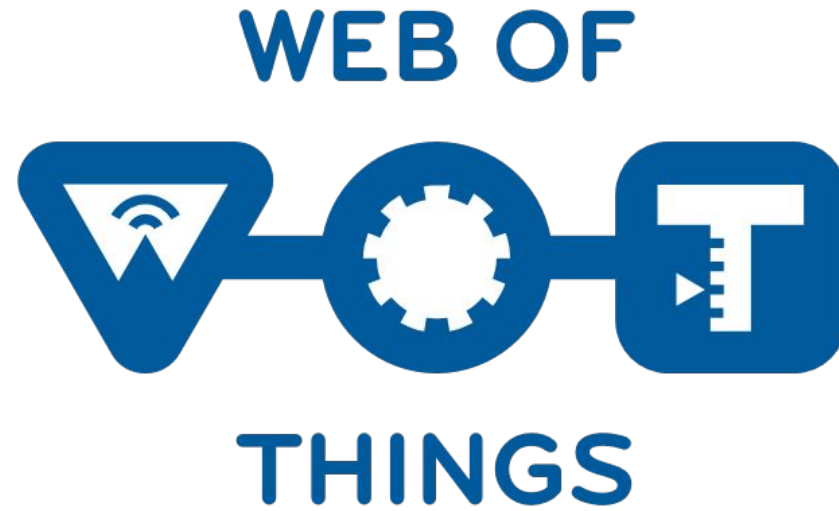

Speaker

Roman Binkert ([GitHub](#) | [LinkedIn](#)) from TU Munich

Roman Binkert is a Ph.D. candidate at the Associate Professorship of Embedded Systems and IoT at the Technical University of Munich (TUM).

His research focuses on developing interoperable Cyber-Physical IoT systems by leveraging the W3C Web of Things to integrate diverse information sources and devices into the Industrial Metaverse. A central goal of his work is to ensure that complex system data is made intuitively understandable and actionable for both autonomous agents and human users.
